Hello Fellow EASAn's,

Winter has finally been broken. Time to think about our spring meeting on April 15, 16 and 17th in Owatonna, MN. We are putting together a technical meeting on VFD applications and troubleshooting. Plus motor testing with surge testers put on by Baker Instrument Company. Hope to see everyone there!

We will also be installing new officers at the banquet. Lou Lahr will be our President, with Judi Johnson as 1VP and Linda Holcomb as 2VP. Thanks for your dedication and hard work for our chapter!

I would also like to congratulate Jim Smith from Advanced Electric as our Region 5 Director!

See you at the meeting,
Dave Temple, President

- Failure Mechanisms
- Motor Testing
- Maintenance Tips
- Methods of Testing
- Hands On Experience
- Helpful Hints

Be sure to reserve your hotel room quickly if staying for the extra Saturday night!
They sell out fast!

Hello fellow EASAn's,

It is that time of year when most people start thinking about spring and summer projects. One of the things on the list that should stay is continued education. The North Central chapter spring conference is almost here and will be held in Owatonna, MN. on April 15, 16 and 17th. Part two on VFD's will be one of the seminars that will be held. This will be a great chance to further your knowledge and also get to know your fellow EASAn's. I hope everyone gets the chance to meet in Owatonna - Lou Lahr, VP
