www.easa.com

- ✓ EASA has been serving electromechanical repair firms since 1933 all across the globe.
- ✓ EASA members know that they belong to an Association that yields practical, measurable rewards.
- ✓ EASA member firms are recognized by manufacturers, customers, and competitors as highly qualified and reputable professionals who set the standards of the industry

Engineering Consulting Service Now With Expanded Support in Pumps & Vibration

EASA's technical support team develops educational materials, presents seminars and provides engineering consulting services.

For most companies, one inquiry to EASA's technical support staff covers the cost of membership. More than 80% of our members use this service; some of them multiple times per year.

Membership includes the EASA Technical Manual on CD ROM. This frequently updated resource contains nearly 1,000 pages of technical/engineering information developed specifically for EASA members.

North Central Chapter

The North Central Chapter is comprised of Minnesota, Wisconsin, North Dakota, and South Dakota. The chapter meets twice a year for educational, networking, and socializing opportunities. The Spring Conference is held in April and the Fall Conference is held in September.

Conference activities include:

- ✓ Training information presented by vendors, members, or EASA staff
- ✓ Chapter meeting to keep all members informed
- ✓ Vendor reception for networking and new product updates.
- ✓ Annual fall golf outing
- ✓ Spouse program

Venues are distributed throughout our chapter area. Past cities include: Huron Milwaukee, Stillwater, and Walker.

The chapter board is comprised of the Pres., 1st VP, 2nd VP, Treasurer, Exec Secretary, six directors, and a regional director.

**Please contact EASA at
